

Van Hoose Construction
101 NE 70th Street
Oklahoma City, OK 73105
405-848-0415

August 7, 2025

To Whom it May Concern,

I am pleased to write this letter of recommendation for Van Hoose Construction. I had the opportunity to work closely with Van Hoose Construction during the entirety of the Locke Supply Headquarters project located in Oklahoma City's premiere commerce park, OKC - 577. I can confidently speak to the quality and professionalism of their work.

From the initial planning stages to final completion, Van Hoose Construction demonstrated an exceptional level of organization, technical knowledge, and commitment to excellence. The project was completed on schedule, within budget, and with a high standard of craftsmanship. Throughout the process, Van Hoose Construction maintained clear communication, proactively addressing challenges and ensuring I was informed every step of the way.

Van Hoose Construction's attention to detail and dedication delivered a finished product that aligned with both functional requirements and aesthetic expectations. Van Hoose Construction managed subcontractors effectively, maintained a safe and clean jobsite, and ensured compliance with all necessary codes and regulations.

I would not hesitate to hire Van Hoose Construction again for future construction or renovation needs, and I highly recommend them to anyone seeking a dependable and skilled contractor.

Please feel free to contact me directly should you require any additional information.

Sincerely,

Erik Gumerson
Vice President of Construction
Gardner Tanenbaum Holdings
